I will read first the Agreement, then the Articles of Association, and then will read you a statement giving our reasons for bringing before you this scheme for changing the company from a gold to a silver currency capital, and I request you to take notes of any thing that I read, but to abstain from comments until I have finished, as my full statement may cover many of the questions that may arise. I will now read the Agreement.

The CHAIRMAN then read the Agreement which had been printed and circulated among the shareholders, and he also read the Articles of Association, pointing out the changes that had been made. The agreement provides for the sale of the old Association with its assets and liabilities to the new Association, each shareholder in the old Association receiving in respect of each share therein held by him one \$100 share in the New Association with the sum of \$100 credited at having been fully paid up

The CHAIRMAN then said—Gentlemen, with

the following statement in explanation of our bringing before you the scheme of placing the present Association on a silver basis, which we have met here to-day at this extraordinary meeting to decide upon. As explained to you at the ordinary general meeting held on the 7th May, 1888, the bad result of our underwriting account for the two previous years, the effect of the war of rates reducing the premis and the course of exchange which obliged us to allow out of our arnings say two to three per cent. annually, brought us face to face with the fact that to pay the usual dividend of £7 per cent. might eneroach on our Sterling Capital which in law we were prevented from doing. Under these circumstances and in obedience to a widespread expressed wish on the part of our shareholders to place before them a scheme for the Association to work muon, on a silver basis, your Directors after long and serious consultation decided to bring forward for your consideration the plan as given in the Prospectus dated 20th February, 1889, forwarded to each shareholder accompanied by the explanatory letter of same a agree we will consider it as read.
